REFERENCE-BOOK FOR A TECHNICAL DIRECTOR, PRODUCTION MANAGER AND QUALITY MANAGEMENT SERVICE AT A PHARMACEUTICAL PLANT

Marina A. Kushnareva,
Chief Editor,
«Pharmaceutical technologies and packaging»,
director of Publishing house «Medical business»,
Member of the Russian Journalists' Union

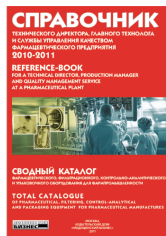

In 2006 for the first time we issued the REFERENCE-BOOK of pharmaceutical, analytical and packaging equipment in Russia, where Russian pharmaceutical manufactures could find information about foreign modern technologies from Germany, Italy, France, Japan and China. There were about 40 companies in it. In 2008 the quantity of companies increases to 60. In 2010 – to 70 companies, in 2012 – to 100 companies, in 2014 – to 120, in 2016 – to 130. We receive many calls from pharmaceutical manufactures, where they ask to issue a new REFERENCE-BOOK. Now in 2018 we have 140 companies in it.

1st issue
2006-2007
240 pages

2nd issue
2008-2009
320 pages

3rd issue
2010-2011
352 pages

4th issue
2012-2013
336 pages

5th issue
2014-2015
368 pages

6th issue
2016-2017
332 pages

BOOK- LABELLING, SERIALIZATION AND TRACK&TRACE

Now the main topic in our Russian magazine "Pharmaceutical technologies and packaging" is "Serialization and Track&Trace". Such companies as Multivac, Laetus, Wipotec OCS, Antares Vision, Sea Vision, Uhlmann, Rockwell Automation, Scanware, Metronik gave the articles to us. The serialization is under Government regulation now in Russia. Two years we have a pilot project for serialization and leading pharmaceutical plants already take part in it, so we receive calls and questions from Russian pharmaceutical manufacturers about this topic. That's why we made a special book - "Labelling, Serialization and Track&Trace", 288 pages A5 with color pictures. This Book is very popular among Russian and CIS pharmaceutical plants.

СПРАВОЧНИК технического директора, главного технолога и службы управления качеством фармацевтического предприятия «Сводный каталог фармацевтического, фильтрационного, контрольно-аналитического и упаковочного оборудования для фармпромышленности 2018-2019» М. Издательский дом «Медицинский бизнес», 2019 г. – 288 стр. с рекламными иллюстрациями.

Издание седьмое, переработанное и дополненное.

Сводный каталог фармацевтического, фильтрационного, контрольно-аналитического и упаковочного оборудования представляет собой перечень зарегистрированного оборудования и материалов для фармацевтической промышленности, которые на сегодняшний день разрешены к применению на территории Российской Федерации. Каталог составлен на основании выборочных данных, предоставленных компаниями-участниками, которые несут ответственность за точность и достоверность предоставленных ими сведений.
